Specific Weather Comments From www.masters.org

Year	Champion	County	To Par	Margin(Holes Played in Playoff)	Comments
2024	Scottie Scheffler	United States	-11	4	The opening round was fortunate to only be delayed by 2 hours and not washed out based on the forecast. The Next Challenge for the players was the wind with gust to over 40mph for both Th. & Fr. rounds. On the 18th hole the sand was blowing across the green from the greenside front bunker. Over the Weekend as the wind decreased to just 20mph gusts by Sunday the temperature climbed to the 7th warmest final round on record.
2023	John Rahm	Spain	-12	4	The roar of Timber! briefly replaced the roar from eagles on Friday when 3 tall Georgia pine trees fell across the fairway of hole 13 as Jon Rahm was finishing his round. Both the 2nd & 3rd rounds were suspended several times on Friday & Saturday. The 1.65 inches of rain on Friday set a record for the day & Saturday play set a record for the Coldest Max T with just 49° & rain. By Sunday the course dried out and the final round was played in cool, breezy conditions.
2022	Scottie Scheffler	United States	-10	3	The 2022 Masters was under the weather the whole week. The Par 3 Contest on Wednesday was stopped early due to severe storms, The opening round was the 3rd wettest, Saturday Max T. was the 4th Coolest & the Sunday low T. was the 2nd Coldest. Wind gust at times on the first 3 rounds were over 25mph.
2021	Hideki Matsuyama	Japan	-10	1	An almost perfect playing of The Masters this year. Hideki captures the first Masters Victory for Japan and the overall temperatures were about 5° above average. Afternoon wind gust around the course only reached in the 20mph range.
2020	Dustin Johnson	United States	-20	5	The first Autumnal playing of The Masters due to Covid-19 was challenged by playing catch up after a Thursday 2 hour delay from morning darkness, rain & lightning. With a split tee format and brief fog delay on Sunday we were treated to a record scoring(-20) win by the #1 player in the world Dustin Johnson.
2019	Tiger Woods	United States	-13	1	The Tiger roars were out in one of the warmest Masters ever played. Max T. readings of 86 on Thursday-Saturday and overnight temps over 67° Friday-Sunday led to a sizzling final round that was only cooled by some isolated showers.
2018	Patrick Reed	United States	-15	1	The 24° morning low T. on Thursday morning was just a few degrees shy from the coldest start to The Masters where in 1996 it was 21°, By Sunday Eagles & Birdies soared in cool calm conditions and at one point 2 players had matched the course record of -9 for the day to only fall shy of it and the 2018 Masters Victory in the end.
2017	Sergio Garcia	Spain	-9	Playoff(1)	The 2017 Masters teed off with the first Par 3 contest cancellation due to severe weather without anyone finishing the 9 hole course. 2016	Danny Willett	England	-5	3	The Weather narrative for this year is by far the wind that blew Thursday- Saturday. Reports of near a half inch of rain softened conditions for Round 1 but gusty winds from 30-40mph made scoring tough till Sunday
2015	Jordan Spieth	United States	-18	4	Almost perfect scoring conditions this year. The max. temp. on Thursday set a new opening round record when the high reached 91° and the moist air kept the course & greens soft and scoreable. On Friday some rumbles of thunder were heard in the evening as a cell passed just west of the course...
2014	Bubba Watson	United States	-8	3	This years competition played in near perfect conditions with no rain(T. take on Sunday evening) and for the most part very little wind. The mean Max. T for the event was 80.5° and ranked as the 12th warmest for Max. T in the 78 year History.

2012	Bubba Watson	United States	-10	Playoff(2)	My first year in attendance at the Masters and I was able to watch the Tuesday practice round. The very warm March led to early bloom of the azaleas and although the grounds and greens were perfect there was a lack of flora in 2012.
2011	Charles Schwartzel	South Africa	-14	2	After overcoming a cold start on Thursday the max. temperature for all four day's was above 80° for only the 3rd time in history(1978, 2004) and the avg. of the max. temperature was only .5° off the all time record of 86.8° set in 1978.
